

Reg. # Beef - 009

Aketa Ranch (Nantan City)

Kyoto prefecture's only!
The cows I raise are 100% born in Kyoto!

Farm location

Aketa Ranch is located in the quiet Den-en region of Sonobe-cho in Nantan City.

Now at auction!

Calves born in Kyoto prefecture and raised with care by Wagyu cattle breeders are gathered for the calf auction (Chutan Livestock Market). Aketa Ranch purchases all of our calves from here.

It's so nice and spacious here!

When cows arrive at the farm, we have clean beds waiting for them.

**We are also eating beer lees!
The slight beer flavor still
remaining makes them delicious!**

Upon arrival, for the first 3 or 4 months the cows are fed 8 times a day. Increasing the feeding times helps make for strong stomachs.

To get through the hot summers, we hang cheesecloth at the barn ceiling to provide shade from the sun. We maintain an environment that is comfortable for the cows to live in.

I lovingly raise the cows with care.

~Please give this delicious beef a try~

The beef is sold under the livestock products
'Kyo-no-Niku' brand primarily within Kyoto prefecture.
